3M™ RepairStack™ Performance Solutions Stationary Cabinet 35526, 1/Case

3M ID 7100236278, UPC 00051131355262

3M™ RepairStack™ Performance Solutions Stationary  
Cabinet 35526

**Engineered with  
profitability in mind.**

---

## Customizable for how you work

The 3M™ RepairStack™ Performance Solutions Stationary Cabinet gives technicians easy access to the supplies they need while delivering controlled access and business insights.

With over 50 cubic feet of storage, six sizes of bins, and over 950 attachment points, shops can stock, store and track 100+ collision repair items in this durable steel cabinet.

Access is controlled and recorded by the Bluetooth® enabled lock, which is controlled with the RepairStack system scanner. A built-in alarm sounds if the cabinet is left open for more than five minutes.

A built-in light makes it easy to see the system's clearly-labeled bins and, using the system scanner, record product additions, their removal for use, and the return of unused products.

## About 3M™ RepairStack™ Performance Solutions

The 3M™ RepairStack™ Performance Solutions hardware and software system delivers universal inventory management, integrated invoicing, and performance analytics to today's leading body shops.

Our integrated and automated solution helps ensure that all the materials you need for safe and reliable repairs are available on hand when you need them, it streamlining the blueprinting and billing process, and giving you real-time insight into your business performance — all to help you unlock opportunities for profit.

Accurately track and organize all your 3M and non-3M materials and automate re-ordering from your preferred distributor — so everything is available on hand, in the shop, at the moment you need it.

---

## 3M RepairStack™ Overview

**Comprehensive Reporting Capability**

Generate business

**Performance Analysis & Material Invoicing**

**Enhanced Inventory Positions**

Better track material

insights designed to help you improve your shop's profitability.

Scan and track usage of shop materials and search reports allowing you to filter by job, technician, and department.

Monitor your business's most important KPIs in real-time and use 3M™ Billables Invoicing Software to blueprint and invoice non-included materials in the main office or shop.

usage, have the right products on hand when you need them, assess dead stock, and navigate material shrinkage. Keep your technicians working and not waiting for products thanks to auto-replenishment.

---

## For use with 3M™ RepairStack™ Performance Solutions

### Apple® iPod touch®

The heart of the 3M™ RepairStack™ Scanner controls cabinet access, manages supply withdrawals, and can be used to update customer invoices.

### Honeywell® Homebase for use with 3M™ RepairStack™ Performance Solutions 35534

Provides charging and storage for the 3M™ RepairStack™ Performance Solutions System Scanner. It charges both the Honeywell® Captuvo and its attached Apple® iPod touch®.

### 3M™ RepairStack™ Performance Solutions Bin Kit

Ninety-nine bins in a range of sizes to let you customize storage in your RepairStack cart or cabinet. Kit also includes 100 clear label holders.

Apple, iPod and iPod touch are trademarks of Apple Inc., registered in the U.S. and other countries. Honeywell and Captuvo are trademarks of Honeywell International Inc. The Bluetooth® name, word mark and logos are registered trademarks owned by Bluetooth SIG, Inc.

## Details

### Highlights

The two-door 3M™ RepairStack™ Performance Solutions Stationary Cabinet houses your collision repair materials in a well-lit, easy to access location

Part of the 3M™ RepairStack™ Performance Solutions hardware and software system for inventory management, integrated invoicing, and performance analytics

The cabinet's Bluetooth® enabled lock is easy to open using the RepairStack system scanner and a system reminder sounds when the cabinet is left open longer than five minutes

The all-steel cabinet's back wall and doors feature more than 950 attachment points for hanging 3M™ RepairStack™ Performance Solutions Bins – allowing you to customize how you store and organize materials

At 78-inches tall, x 24-inches deep x 48-inches wide, the cabinet offers more than 50 cubic feet (1.45 cubic meters) of internal capacity

Built-in light is activated when the cabinet doors are opened

The 3M™ RepairStack™ Performance Solutions Software Suite includes 3M™ RepairStack™ Performance Solutions Inventory Management Software, 3M™ RepairStack™ Performance Solutions Billables Invoicing Software (integrated and non-integrated) and 3M™ Performance Analytics Tool

The 3M™ RepairStack™ Performance Solutions Stationary Cabinet delivers secure, highly-customizable storage for collision repair materials. Position your choice of 3M™ RepairStack™ Performance Solutions Bins to hold 3M and non-3M repair supplies.

Designed for use with the 3M™ RepairStack™ Performance Solutions Software Suite, which includes software to support inventory management, integrated invoicing, and tracking performance analytics.

The 3M™ RepairStack™ Performance Solutions Stationary Cabinet provides 50 cubic feet of storage for 100+ collision repair items while enabling the 3M™ RepairStack™ inventory management features.

Cabinet access is controlled by its Bluetooth® enabled lock, which is controlled with the RepairStack system scanner. A built-in alarm sounds if the cabinet is left open for an extended period.

The all-steel cabinet's back wall and doors feature more than 950 attachment points for hanging 3M™ RepairStack™ Performance Solutions Bins – allowing you to customize how you store and organize materials.

A built-in light makes it easy to see the system's clearly-labeled bins and, using the system scanner, record inventory additions, their removal for use, and the return of unused materials.

### For industrial/occupational use only. Not for consumer sale or use.

3M industrial and occupational products are intended, labeled, and packaged for sale to trained industrial and occupational customers for workplace use. Unless specifically stated otherwise on the applicable product packaging or literature, these products are not intended, labeled, or packaged for sale to or use by consumers (e.g., for home, personal, primary or secondary school, recreational/sporting, or other uses not described in the applicable product packaging or literature), and must be selected and used in compliance with applicable health and safety regulations and standards (e.g., U.S. OSHA, ANSI), as well as all product literature, user instructions, warnings, and other limitations, and the user must take any action required under any recall, field action, or other product use notice. Misuse of 3M industrial and occupational products may result in injury, sickness, death, or property damage. For help with product selection and use, consult your on-site safety professional, industrial hygienist, or other subject matter expert.
